Conference

Call for Papers

NUREMBERG, GERMANY

17 - 18.03.2027

The edC invites contributions from research, development, applications, system integration and market perspectives in display technologies and visual systems. We especially welcome application-driven contributions showing how displays, interfaces and embedded visual systems are used in real products and emerging markets.

Suggested topics include, but are not limited to:

- Market Trends, Regulation & Standardization
- Display Applications & Use Cases
- Measurement & Image Quality
- System Integration & Reliability
- Touch, Haptics & User Interaction
- AI & Smart Display Systems
- Immersive, 3D & Spatial Interfaces
- Display Technologies & Materials
- Display Components & Subassemblies
- Interfaces & Driving Technologies
- Production, Supply Chain & Sustainability
- Security & Privacy

Submit your Abstract until October 05!
