

ELECTRONIC DISPLAYS CONFERENCE 2027

# Beyond the pixel: where displays become systems

DATE  
**17. to 18. March 2027**

VENUE  
**Messezentrum Nürnberg**

ABSTRACT DEADLINE  
**5 October 2026**

## The conference

The electronic displays Conference is the established European conference for electronic displays, visual interfaces and systems integrating display technologies. It brings engineers, researchers, users, manufacturers, distributors and system integrators into one room, across the full value chain.

## Why it matters now

Displays have become an essential part of industrial systems, medical devices, mobility, smart products and embedded applications. edC looks beyond the pixel: towards real-world use cases, reliable integration and next-generation visual systems.

**400+**

participants and speakers in 2026

**40+**

talks and speakers over two days

**800 min**

networking and discussions

## DOUBLE IMPACT

### Right at embedded world

edC takes place at **embedded world**

**Exhibition&Conference:** same venue, same days, with the dedicated **electronic displays area** on the show floor next door. One trip, two audiences: the display community and the entire embedded systems ecosystem.

Accepted presentations are published in the official conference proceedings.

## TOPICS OF INTEREST

## What we are looking for

### TECHNOLOGY & COMPONENTS

Display technologies and materials

Components and subassemblies

Interfaces and driving technologies

Measurement and image quality

### SYSTEMS & INTERACTION

System integration and reliability

Touch, haptics and user interaction

AI and smart display systems

Immersive, 3D and spatial interfaces

### APPLICATIONS & MARKETS

Applications and real use cases

Production, supply chain, sustainability

Market trends, regulation, standards

Security and privacy

The full list of topics is on the website. Students and young professionals are especially encouraged to submit.

## Why submit a paper?

### Make a lasting impact

More than 400 participants and speakers joined edC 2026, Europe's leading display event.

### Reach the full value chain

Decision makers, engineers and researchers from across the whole ecosystem.

### Get published and connect

Accepted contributions appear in the official proceedings; author interviews add conversations on site.

## How to submit

- 1 Visit [electronic-displays.de](https://electronic-displays.de) and open the **Call for Papers** section, which takes you to the submission portal.
- 2 Log in there or create an account, then add your contact data and a short biography, the presentation title and the abstract.
- 3 Submit. Well prepared, the whole thing takes 15 minutes.

**Format and language:** abstracts in English, plain text, max. 1,000 characters. Talks are 15 minutes, keynotes excluded. Poster applications are very welcome.

### DEADLINES

|                         |                   |
|-------------------------|-------------------|
| Abstract submission     | <b>5 Oct 2026</b> |
| Notification of authors | <b>Nov 2026</b>   |
| Paper for proceedings   | <b>Feb 2027</b>   |

Scan to submit

**Submit your abstract now!**
